- Measurements are width x height unless specified.
- The following instructions are for three cards. Use the remaining supplies provided in your kit to create three additional cards by following the steps using other papers!

#### Directions:

- · At the bottom of each card, there will be three layers of paper representing flower beds and grasses. Add dimension to the layers by doing one of the following: Distress the top of the card strips: tear the top edge and/or use damp fingers and curl the edges of the layers; use the edge of a scissors or an edge distresser and distress the edges.
- Optional: paint each of the clocks shown with white acrylic paint (see photo to the right), let the paint dry, then lightly sand the top with sand paper or a nail file.

- ~ Card #1: The Grass Is Greener (Horizontal Card)
- 1. Using Bloom & Grow (B-side), measure and cut from the bottom 4" x  $5\frac{1}{4}$ ". Add to the center card front.
- 2. Strip #1: From *Little Things*, cut a green polka dot strip with yellow flowers to 51/4" wide. Strip #2: Cut from Hello Ladybug (B-side) 1½" tall x 5¼" wide. Strip 3: From What's Up Buttercup cut a strip 2" tall x 51/4" wide. These strips can also act as pockets. Glue these

three strips together first and then glue them on the card front. Make sure to glue only on the sides at first, then the last layer (the bottom layer) and the sides of all three can be glued to the card. These will leave the tops of each layer open for adding images.

- 3. Fussy cut the following: From Little Things mushroom with door; From Forget Me Not - two elves dancing and the mushroom with the elf. Layer these pieces onto the card front as shown in the photo.
- 4. From Bloom & Grow, cut a 51/4" "The Grass is Greener" strip and adhere at the top of the card. For the inside of the card: Add a 5½" "The Grass is Greener" strip along with chipboard "Enjoy the Little Things" and a small metal clock as shown. Optional: add a piece of string (or stitching floss) through the top of the ornament and use just a dab of glue to keep the string in place.
