

# FLOWER MARKET TAG

TUTORIAL BY TATI SCRAP

## STEP 1

We choose the flowers and butterflies from the Flower Market collection and cut them out to later use them in the pop-up card.

## STEP 2

To give a more vintage look to our project, we will use this wonderful color "Marine Blue" G45 Inkpad.

**STEP 3 :** We are going to glue all our cuts on the card.

## STEP 4

We will stick our card on a piece of paper with the same size, to hide, in this way, the pop-up mechanism.

## STEP 5

In this step I have used <https://g45papers.com/product/large-tag-atc-tag-and-flower-dies/>

We are going to get 4 cut out pieces

... And we'll stick them on artist G45 Tags :

## STEP 6

We cut a strip of paper to join the two tags

Once the tags are decorated we glue it to the pop-up

## STEP 7

I have used a piece of bellum paper to put a message with the G45 stamps, <https://g45papers.com/product/sentiment-stamps/>

Again I have used "Blue Marine"

And we already have finished our card for any occasion!!

I hope you like it
